Protecta Diffuser Retaining Clip (2- Per Fitting) - Installation Procedure

1. With fitting as shown, position the first diffuser clip as shown
2. Position as shown; ensure that the clip is between the housing and the diffuser hinge pins.
3. Slide the clip into the position as shown
4. Clip in Position
5. Gently Pinch the clip in position as shown. Check it is securely fixed.
Note: There should be some movement of the clip, this is normal.

Repeat Steps 1-5 at opposite end of fitting with second clip.
